PROFESSIONAL SUMMARY

Diploma in Computer Science & Technology student and aspiring Frontend Developer with hands-on experience in HTML, CSS, JavaScript, React.js and Tailwind CSS. Experienced in building responsive web interfaces and React applications using REST APIs, React Router and Firebase Authentication. Interested in developing user-friendly, real-world web applications and growing as professional web developer.

TECHNICAL SKILLS

- Frontend: HTML5, CSS3, JavaScript, React.js, Tailwind CSS
- Backend / Services: Firebase Authentication, REST API Integration
- Tools: Git, GitHub, VS Code
- Programming: JavaScript, Python, Java
- Other: React Router

PROJECTS

Personal Developer Portfolio

React.js, Tailwind CSS

- Designed and developed a responsive personal portfolio website to showcase skills, projects, education and contact information.
- Built reusable UI sections with a clean and modern responsive layout.

Fresh Mart

Frontend Web Project

- Developed a responsive online shopping interface focused on product presentation and user-friendly navigation.
- Implemented reusable UI sections and responsive layouts.

ChronoClock — Advanced Time Dashboard

HTML, CSS, JavaScript, Canvas API

- Built a responsive time dashboard with Analog/Digital Clock, Stopwatch, Countdown, Alarm, World Clock, and Time Zone Converter.
- Used Canvas API, JavaScript Date/Intl APIs, LocalStorage, and browser notifications for interactive real-time features.

Shop.co | Fashion Landing Page

HTML, CSS

- Created a fashion-focused responsive landing page using HTML and CSS.
- Developed structured sections with a modern and clean UI layout.

React User Management / API Project

React.js, REST API

- Built a React application to fetch and display user data from a public REST API.
- Implemented user search, selected user details, loading/error states, and API retry functionality.

Personal Budget Tracker

HTML, CSS, JavaScript

- Developed an interactive budget tracking application to calculate income, expenses, tax, net income, balance, and savings.
- Implemented JavaScript-based financial calculations and conditional warnings to highlight low savings or negative balances.
- Designed a user-friendly interface to display personalized financial summaries.

EDUCATION

Diploma in Computer Science & Technology (CST)

Sylhet Polytechnic Institute

6th Semester (Running) | Session: 2023–2024

CERTIFICATION

AI Skills Training Programme — Certificate of Completion

BRAC Education Programme (BEP) & Social Innovation Lab (SIL)

LANGUAGES

- Bengali — Native
- English — Basic Working Proficiency

ACTIVITIES

- Member, Computer Club
- Participated in a technical seminar
